WHAT SERVICES DO YOU OFFER?

Jardine Construction has two divisions: our luxury home division focuses on custom design build projects, while our renovation division is dedicated to luxury resort renovations.

WHAT GEOGRAPHIC AREAS DO YOU SERVE?

We focus in the Park City, Wasatch Back, and Summit County areas.

HOW DO YOU KEEP UP-TO-DATE ON CONSTRUCTION TRENDS AND TECHNIQUES?

The Jardine Construction team regularly participates in continuing education opportunities to learn about trends and techniques that will benefit our clients. As a member of local and national builders' associations for many years, I continue to be inspired by the opportunity to engage in those organizations and share professional best-practices with other builders, so that we can pass

that expertise on to our clients.

WHEN DID YOU KNOW THAT YOU WANTED TO GO INTO CONSTRUCTION? WHAT MOTIVATED YOU?

My father was an engineer and was involved in building major industrial projects, so I was exposed to construction from an early age. I started working for a contractor myself early in my working life before pursuing an education in business and ultimately developing my own construction projects.

WHAT SPECIALTIES DO YOU HAVE IN-HOUSE?

Our carpentry team is exceptional and includes a master framer; we also pride ourselves on the exterior packages that we do in-house.

WHAT IS A RECENT PROJECT THAT YOU ARE ESPECIALLY EXCITED ABOUT?

Every project is unique in terms of location, design team, and the great clients we work with; all of our projects have

been very rewarding. Recently, we finished a complete renovation of a space on Main Street in historic Old Town, which was an incredible opportunity.

WHAT MAKES THE DIFFERENCE BETWEEN GOOD CONSTRUCTION AND GREAT CONSTRUCTION?

When we talk about construction, we tend to focus on the architecture, products, and design of the items you see and touch. However, in my view, great construction is defined by the work of a talented team inspired to collectively accomplish their client's vision—to build their dream.

WHAT WORDS DO PEOPLE USE TO DESCRIBE YOUR WORK?

Words that come up often are: personalized and fun. Our clients appreciate the relationships we prioritize, which make for a fun and rewarding process for everyone.

WHAT IS THE MOST EXCITING NEW PRODUCT OR DEVELOPMENT IN

YOUR FIELD?

I'm excited about the new online construction project management tools. We are seeing several options being developed, which I believe make the designing and building process easier for both the client and contractor.

WHAT DO YOU ENJOY MOST ABOUT WORK?

I have always enjoyed the process of building, but especially the process of creating a team for each project. Once we have our team and each member has a good understanding of the client's vision, each person is able to take ownership and excel in their field.

IF YOU WEREN'T IN CONSTRUCTION, WHAT WOULD YOU BE DOING?

I would love to be managing or coaching an NFL or NBA team.

WHAT DO YOU LISTEN TO WHILE YOU WORK?

I always have an audio book playing as I make my rounds from site to site.

DO YOU HAVE A FAVORITE SPORT OR RECREATIONAL ACTIVITY?

Our family loves to play on the water, and Lake Powell is a favorite place to visit. I feel transformed when I'm on the lake—it holds some of my fondest childhood memories and now my greatest memories with my family.

LAST BOOK YOU READ THAT YOU WOULD HIGHLY RECOMMEND?

The Glorious Cause by Jeff Shaara, which describes the origins of the American Revolution. The book helped me understand and appreciate why we should respect our country, the process of revolution, and especially our flag.

MOST RECENT EMBARRASSING MOMENT?

I wiped out hard on a Segway at a builders' meeting in Atlanta—my wife said my last words were, "I'm going to see how fast I can make this go down this hill!"
